

# Manpower Nexus

POWERED BY CIOO LABS

Empower teams with proactive workforce insights to facilitate timely headcount planning.

## Metrics

- **Reduce time spent** on workforce management by having a SSOT for teams to easily access workforce information and initiate admin changes (e.g., transfers, change CC)
- **Reduce time-to-start-hiring** by providing teams with better workforce visibility

## Use cases

Managers and HRBPs can

1. Access a complete and up-to-date view of their entire team, all in one place. This includes FTEs (Full-Time Employees) and TIVOs
2. Initiate authorised changes using the platform, which syncs back to Workday.
  - i. Position approvals and distribution
  - ii. Transfers, and more!

To date, we have onboarded managers from: DEP, Singpass and SCG (HRBP only)
