Glean (SaaS)

POWERED BY CIOO LABS

An AI-powered enterprise search tool to
solve our knowledge management challenges

Metrics

- **Adoption:** Onboard 100 users (from product teams) for a 12-month POC

- **Engagement:** Average >3 queries (per user, per day)

Use cases

- **Unified AI-Powered Search:** Solve our key search problems by finding information across connected GovTech data sources at once (*limited to Restricted / Sensitive Normal data for the POC*)

- **Instantly locate information from:**
  - **Live:** Google Workspace (Drive, Email, Calendar etc.) and Slack
  - **Coming Soon:** Jira, Confluence, Gitlab, Dev Portal *and more*

- **Security:**
  - Adheres to high data privacy and security standards (SOC 2 Type II, GDPR)
  - Isolates customer data in a dedicated single-tenant VPC
